

January 2013

Dear Frances,

The **SUMMIT** Companies are pleased to share our news with clients, business contacts and friends. In this edition we highlight some of our recent healthcare related projects, new team members and recent awards. We hope that you will contact our firm anytime you believe that we may be of assistance with your engineering needs. Thank you!

SUMMIT Selected for Healthcare Projects

Healthcare Project Spotlight

SUMMIT was selected by Carolinas Healthcare System to provide Geotechnical Engineering, Construction Materials Testing and Special Inspections for the new CMC Union Women's Acute Care Facility and Helipad. The \$57 million expansion consists of a new 5 story building, 49 new beds and a elevated helicopter landing area at the existing CMC Union Hospital in Monroe, NC. Rodgers Builders is the General Contractor for the project which is shown in the adjacent rendering.

Additional Healthcare Projects

CMC-Rock Hill, Carolinas Healthcare System, Rock Hill, SC. **SUMMIT** was selected to provide Geotechnical Engineering, Construction Material Testing and Special Inspections for the new 3 story 92,000 square foot Medical Office Building. Myers & Chapman is the general contractor for the project.

CMC Lincoln MOB Medical Plaza Phase 2, Carolinas Healthcare System, Lincolnton, NC. Continuing our work started in 2007 at the CMC Lincoln campus, **SUMMIT** was selected to provide Construction Material Testing and Special Inspections for the new 3-story, 60,000 square foot Medical Office Building adjacent to the CMC Lincoln hospital. This is the 2nd Medical Office Building at the campus. Myers & Chapman is the General Contractor.

CMC Mercy, Carolinas Healthcare System, Charlotte, NC. **SUMMIT** was selected to provide Environmental Engineering and Materials Testing at the recent underground storage tank and soil removal at the CMC Mercy campus. Our work included advanced environmental sampling, monitoring and compliance reporting with local, state and federal authorities.

Presbyterian Hospital (Main), Novant Health, Charlotte, NC. **SUMMIT** was selected to provide Environmental Engineering services consisting of asbestos inspection, asbestos project designs, asbestos abatement air monitoring for multiple renovations/additions to the existing hospital.

CREW's Networking Deal of the Year Award Includes SUMMIT

Rebecca Herron, Director of Business Development and member of CREW, received an award as part of the Networking Deal of the Year, for the Special Inspections and Materials Testing **SUMMIT** performed at Chiquita Headquarters.

CREW Charlotte held their third annual Excellence Awards Luncheon, December 11, 2012 at the Ritz Carlton, honoring several members for their outstanding contributions. One of the highlights included Networking Deal of the Year, Chiquita Headquarters, recognizing (8) CREW members and sponsors who participated at various levels on the project including

recruitment, real estate services, design and engineering services, project management, and interior materials and construction. [Click Here to Read Full Press Release](#)

SUMMIT Hires Professional Engineer

Tracey McCormick, P.E.

Tracey McCormick is a graduate of Pennsylvania State University, where she obtained a Bachelors of Science in Civil Engineering. Tracey's 13 years of experience within the industry has provided her with unparalleled understanding of client expectation and deadline management, coupled with exemplary technical ability. Tracey brings an outstanding level of excellence through her skills in a wide range of residential, commercial and industrial projects. Ms. McCormick is a vital part of **SUMMIT's** continued growth.
