January 2014

SUMMIT Celebrates 10 Years in Business!

SUMMIT is excited to announce our 10th year in business. Throughout our history, we have strived to uphold the outstanding reputation for service, solutions and response with our clientele. Likewise, we have utilized that same reputation with our existing clients to promote sustained and manageable growth.

Since our founding in January of 2004, **SUMMIT** has experienced a consistent and steady expansion in our service sectors, capabilities, clientele and team members. Although we were founded with only 3 individuals, **SUMMIT** is now comprised of 93 employees with 4 office locations serving North and South Carolina. While initially focusing on Materials Testing services, **SUMMIT** has since incorporated a wide range of engineering and support services including full-service Environmental, Geotechnical,

Subsurface Drilling, Special Inspections, Forensic and Wood-frame Structural Engineering departments. In addition, **SUMMIT** has added a Land Services division including Civil Engineering, Site Planning and Land Surveying.

We are proud of our accomplishments and advancement over the last 10 years and are grateful for the opportunities to work on some of the area's most unique projects. As a company, **SUMMIT** is poised to continue our growth within our existing markets in addition to exploring new opportunities throughout the Carolina's.

SERVING THE CAROLINAS

We would like to express our sincere gratitude and appreciation to both our clients and employees that helped us get here. From everyone at **SUMMIT**, *thank you!* We could not have done it without you and look forward to working with you for years to come.
